

# Meeting Minutes 03.10.2024

Everyone now has access to the society email.

## Pub Quiz:

- Email remaining pub questions to Braley
  - SU under 18's policy - go to admin tools and check which are under 18 - email saying you unfortunately can't come to social (Ben)
  - Post on the story tonight (Lottie)
  - WhatsApp announcement tonight (Evgenii)
  - Winners get half-price off BUMS Ball tickets
- 

## Committee Applications:

Accepted two people: One for Social Sec (Mustafa), other for BUMS ball Coordinator (Emily).

---

## Potential prizes for the PI competition:

Email the winners once prizes have been confirmed

First place:

- Box of chocolates
- Pi Hat. It says "Pi-savant" (look at MIT Integration Bee hats for inspo)

Top 3:

- Certificate?
  - Year pass for ticketed events?
- 

## Integration Bee:

- Email Vishal (Evgenii)

- Ask lecturers if they want to do some classes on it. Multivariable Calc lecturers were brought up: Ben Adams, Tom Cotrell (Evgenii)

## **ICMC (Imperial–Cambridge Mathematics Competition):**

Evgenii (using his email) emailed them two weeks ago, they said they'll contact us later

## **IMA (Institute of Mathematics and its Applications):**

They only contacted us to ask us to advertise one of their things

---

## **Mathematics Discord server:**

- Maths coordinator people will email the entire Maths dept on Monday
  - Make slide for the discord (Make clear you don't need to be a member of BUMS) (Ben)
  - Guide on how to use discord and the server in the email (Viktor)
  - Rebrand discord server to reflect that it's not a server for BUMS, but for the Maths Dept and for academic purposes. Add to # info channel or something to reflect that.
  - Will not be advertising BUMS events on the server.
- 

## **Society email:**

SU asks: Advertise black history month. We could potentially do a lecture on black mathematicians

## **Society funds: (Chair and Treasurer)**

- Viktor and Braley need to book a meeting with the Activities Officer to discuss how the funds will be used.  
Potential use of funds:
- Could hire Tom Rocks Maths, Numberphile?
- Reducing price of BUMS Ball tickets

- Paying for more event space, and other stuff that gives more opportunities for bigger events
- 

### **Stuff in the uni we could advertise:**

- TBRE AI, 10 people in team, 30 more contributing but not in team (Evgenii proposed this, and will follow up with any updates)

### **Collab with:**

- Programming society
  - Poker
  - Chess (They said yes) Idea: Lecture on why is chess technically solvable but hasn't been
- 

### **Potential Future Pub Lecturers:**

- Dr Erik Hester (New lecturer who's apparently entertaining)
- Euan Spence (The lecturer for Y2 Vector Calc)

### **Canon:**

- Evgenii proposed we change the pub lecture venue to Canon, because the Bath Brew House is too small (Limited number of tickets that sell out quickly)
- The Canon will get back to us on sponsorship, which gives the society a discount on drinks.

### **Merch:**

- Contact some merch businesses. Braley said she has a contact which could provide BUMS with merch
  - Kirsten looks into merch: Where does Uni get it, potential places to get it, what merch to sell
- 

### **Feedback**

- After two socials, give out a survey to the society: What they want more of, what new stuff do they wanna see
- Anonymous feedback among the committee

## **Weekly Meeting changes**

Next week, Thursday (10.10.2024) : Same time

New meeting time after next week: 17:15 on Tuesdays
